Critical Manufacturing Our People

The Team

Our company is not just about a few key persons.

All of our staff members have been carefully recruited, and have extensive experience in IT technologies, architecture and development processes in the context of Advanced Manufacturing Environments.

They have been involved in the development and deployment of complex solutions for critical manufacturing environments world-wide.

The full team embraces the challenge of making Critical Manufacturing the prime solution provider for high-tech manufacturing, with passion and dedication.

Francisco Almada Lobo,
CEO
